## CAREER OBJECTIVE

To work in a challenging engineering environment that encourages continuous learning, innovation, and professional growth

## EDUCATION

V.S.B. ENGINEERING COLLEGE, KARUR  
Electronics and Communication Engineering in

Progress

BATCH

2023-2027

CGPA - 8.7

SSLC-All Pass

HIGHER SECONDARY

BHARATHI MATRIC HR. SEC SCHOOL,  
VIJAYAMANGALAM, ERODE

PERCENTAGE - 83%

## PROJECT

### LASER ENGRAVER

- A small-scale CNC-based system that uses a focused laser diode to etch or engrave patterns onto wood, acrylic, or similar materials.
- It employs techniques like CNC motion control (stepper motors + drivers), laser modulation (PWM control), and G-code processing for precise engraving.

### HEALTHY LIFE WITH AI

- A mobile application that promotes mental well-being through mood tracking, stress-relief exercises, and personalized suggestions.
- It uses AI techniques like sentiment analysis, recommendation systems, and chatbot-based interaction to provide simple and supportive features.

### CATTLE HEALTH MONITORING BAND

- A wearable device for cattle that tracks vital health parameters and alerts farmers for early disease detection and safety.
- It uses sensors (temperature, motion), wireless communication (LoRa/Bluetooth), and data analysis techniques (threshold detection, anomaly monitoring) to ensure timely

## CAMP SKILLS

A peer-to-peer skill exchange platform developed using HTML, CSS, and JavaScript where students can post, search, and manage skills they want to teach or learn. Implemented interactive features such as dynamic skill posting, search functionality, like system, dark mode, and localStorage for persistent data storage. Designed a responsive and user-friendly interface to encourage collaborative learning among students

## GLOWUP

A self-care and productivity web application built with HTML, CSS, and JavaScript to help users track daily habits, water intake, and motivational progress. Developed an aesthetic and responsive interface with interactive habit tracking and dynamic motivational quote generation to promote healthy routines and personal growth.

## INTERVIEW PREP TRACKER

A responsive web application built using HTML, CSS, and JavaScript to help users organize and track interview preparation topics. Features include task management, progress tracking, completion status updates, and Local Storage integration for persistent data storage.

## **CERTIFICATE**

- Basics of Java in Infosys Springboard
- NPTEL Certification in Java Programming
- Secured First place in Ideathon 2023
- Appreciation certificate for coordinating inter college event LiRo

## **TECHNICAL SKILLS**

- Java programming
- Basics in C programming
- Basics in Data Structures and Algorithm
- Frontend: HTML,CSS,JavaScript

## **PERSONAL DETAILS**

DOB: 26/05/2005

FATHER: GANESHMOORTHY K

MOTHER: ANUSUYA S

**DATE:**

**PLACE:**

**SIGNATURE**
